

RESOURCES FOR SUPPORTING

In an effort to support the use of the Alaska STEPP online tool, the EED is providing resources for sites to utilize during the transition phase of online planning. Listed below are helpful avenues by which schools and districts can become familiar and proficient with the Alaska STEPP online software program.

1.) **Domains and Indicators Rubric for Schools** located on the EED homepage.

- After going to the EED homepage, click on the orange Support Tab
- Click on Alaska STEPP
- Click on Alaska STEPP Domains and Indicators Rubric for Schools
<http://education.alaska.gov/aksupport/akstepp/Alaska-STEPP-Domains-Indicators-Rubric.pdf>
- Assess, Plan, & Monitor worksheets in a printable, paper format can be found using the Navigation Toolbar in your site's STEPP page.

2.) **Scheduled Webinars** will address navigating the STEPP online tool, and will address the practical application of using STEPP with a site team.

NEW USERS		RETURNING USERS		DISTRICT STEPP COORD.	
Date	26-Sep	Date	1-Oct	Date	8-Oct
Times	10:30am - 11:30am	Times	10:30am - 11:30am	Times	10:30am - 11:30am
	3:30pm - 4:30pm		3:30pm - 4:30pm		3:30pm - 4:30pm
Date	9-Oct	Date	10-Oct		
Times	10:30am - 11:30am	Times	10:30am - 11:30am		
	3:30pm - 4:30pm		3:30pm - 4:30pm		

3.) **Alaska STEPP 2013-2014 Users Guide** located on the EED homepage.

- After going to the EED homepage, click on the orange Support Tab
- Click on Alaska STEPP
- Click on Alaska STEPP Users Guide
<http://education.alaska.gov/aksupport/#c3gtabs-stepp>

4.) **STEPP eModules** located on the EED homepage.

- After going to the EED homepage, click on the Support Tab
- Click on the Educators & Administrators Tab toward the top of the page
- Scroll down and on the right side under Programs; click on eLearning Modules
- If you have not used eLearning, click on Request New Account, and you will be prompted to set up a new account.
- In the eLearning system, the STEPP modules are located alphabetically under 'S'. *Though the STEPP program has been updated, and the modules may contain inexact features, these modules are still quite helpful.*
